

**26th International Scientific and Engineering  
Conference on Photoelectronics  
and Night Vision Devices  
May, 25-27, 2022, Moscow  
<http://conference.orion-ir.ru>**

**Conferece is organized by:**

The State Scientific Center of Russian Federation JSC "Orion" R&P Association"

**Conference is supported by:**

Ministry of Industry and Trade of Russia,  
State Corporation "Rostec",  
Shvabe Holding,  
Russian Foundation for Basic Research,  
Russian Optical Society,  
D.S.Rozhdestvensky Optical Society.

Conference topics:

- Solid-state photosensorics,
- Thermal vision and night vision technics,
- Photosensorics materials and new technologies,
- Microelectronics for photoelectronic photosensorics,
- Metrology for optical radiation detection,
- Microcryogenic technics.

Conference format: invited, oral and stand reports.

Official languages of Conference are Russian and English.

Information support: "Applied Physics" and "Advances in Applied Physics" Russian scientific journals

**Paper submission and specifications**

The volume of papers should 1,5 to 2 pages of A4 format including title, abstract, illustrations and references. Use Microsoft Word text editor, illustrations should be inserted in text as JPG, BMP, WMF or EMF format. **Paper preparation sample** will publish on Conference site. Electronic variant of papers should be send at [conf@orion-ir.ru](mailto:conf@orion-ir.ru) e-mail address.

**Abstracts Deadline: March 15, 2022.**

Confrence proceedings will be published as collected papers with ISBN number and DOI indexes. Conference proceedings will be uploaded in eLIBRARY scientific resource.

Receiving papres:

Lilia G. Sevalkina  
+7 (499) 374-81-51

Conference will be held in the "RD&P Center "Orion" at the address:  
9, Kosinskaya St., Moscow, 111538, Russia.

Details of holding a Conference will be published in January 2022 on <http://conference.orion-ir.ru>
